India's fintech ecosystem has evolved significantly with considerable efforts from financial institutions, startups, the government, venture capitalists and regulators to create a favorable environment for fintech innovation that's conducive of collaboration.

According to a [Yes Bank report](#), the transaction value for the Indian fintech sector was estimated to be approximately US\$33 billion in 2016 and is forecast to reach US\$73 billion in 2020 growing at a five-year CAGR of 22%.

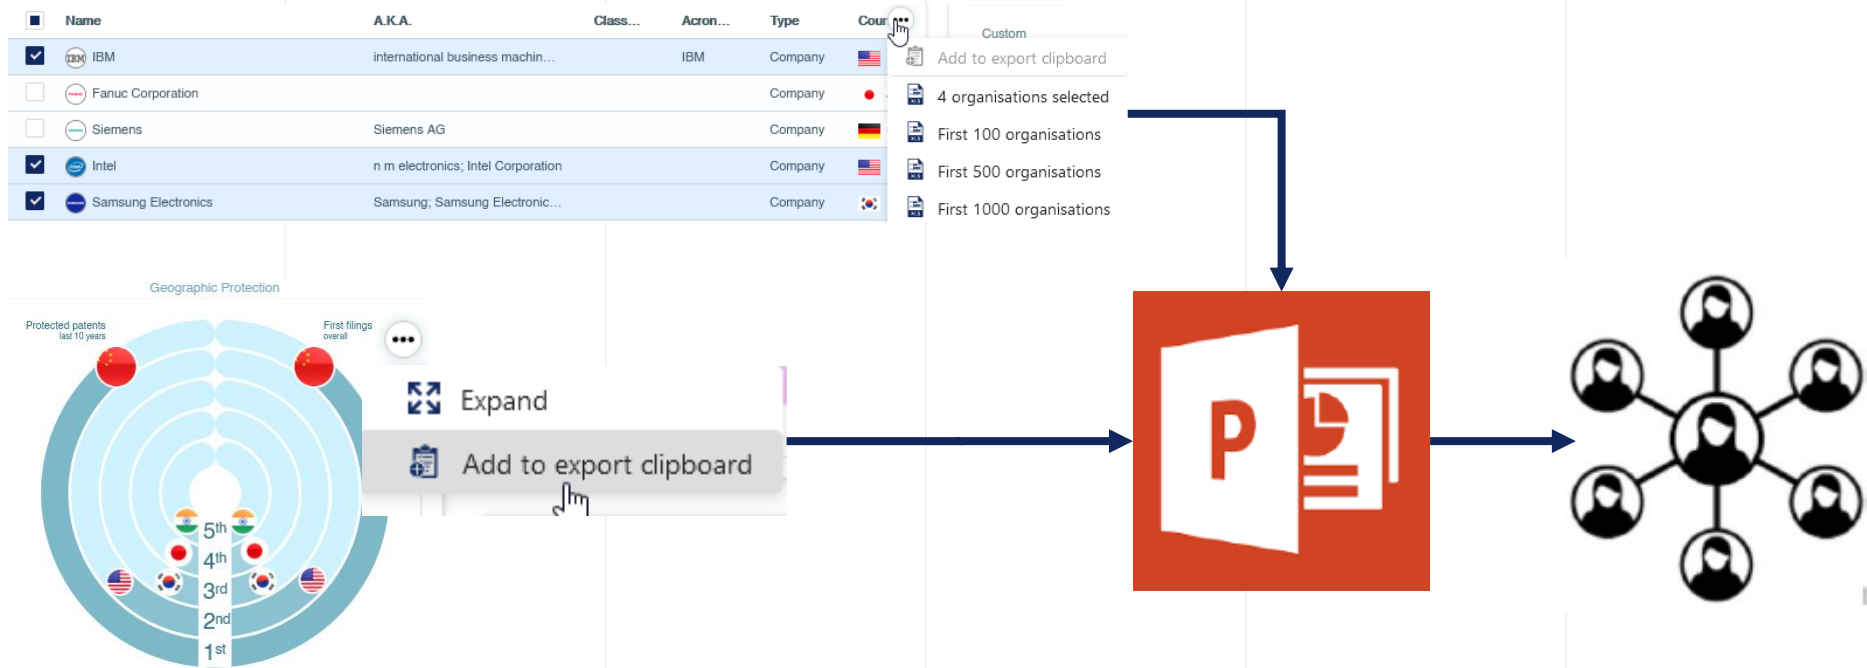

The following 10 companies are some of India's hottest fintech startups that are fueling the country's fintech revolution:

The screenshot displays the Orbit Insight platform interface. At the top, the Orbit Insight logo is visible. Below it, a search bar prompts users to "Enter concept (biomarker, autonomous vehicle,...) or organisation (Facebook, Samsung,...)". The main content area is divided into two columns: "Last searches" and "Last news". The "Last searches" column lists recent searches such as "insights on lidar", "insights on MRNA vaccine", "insights on artificial intelligence", and "insights on biomarker". The "Last news" column lists recent news items, including "DefinedCrowd CEO Daniela Braga on the future of AI", "Interview with Buck Jordan, Miso Robotics", "Deloitte to launch AI Institute initiative in Canada", "Peak AI nabs \$21M for a platform to help non-diversify", "Miso Robotics Equity Crowdfunds \$17M", "ServiceNow closes US\$230-million acquisition", and "What Most People Don't Understand About AI".

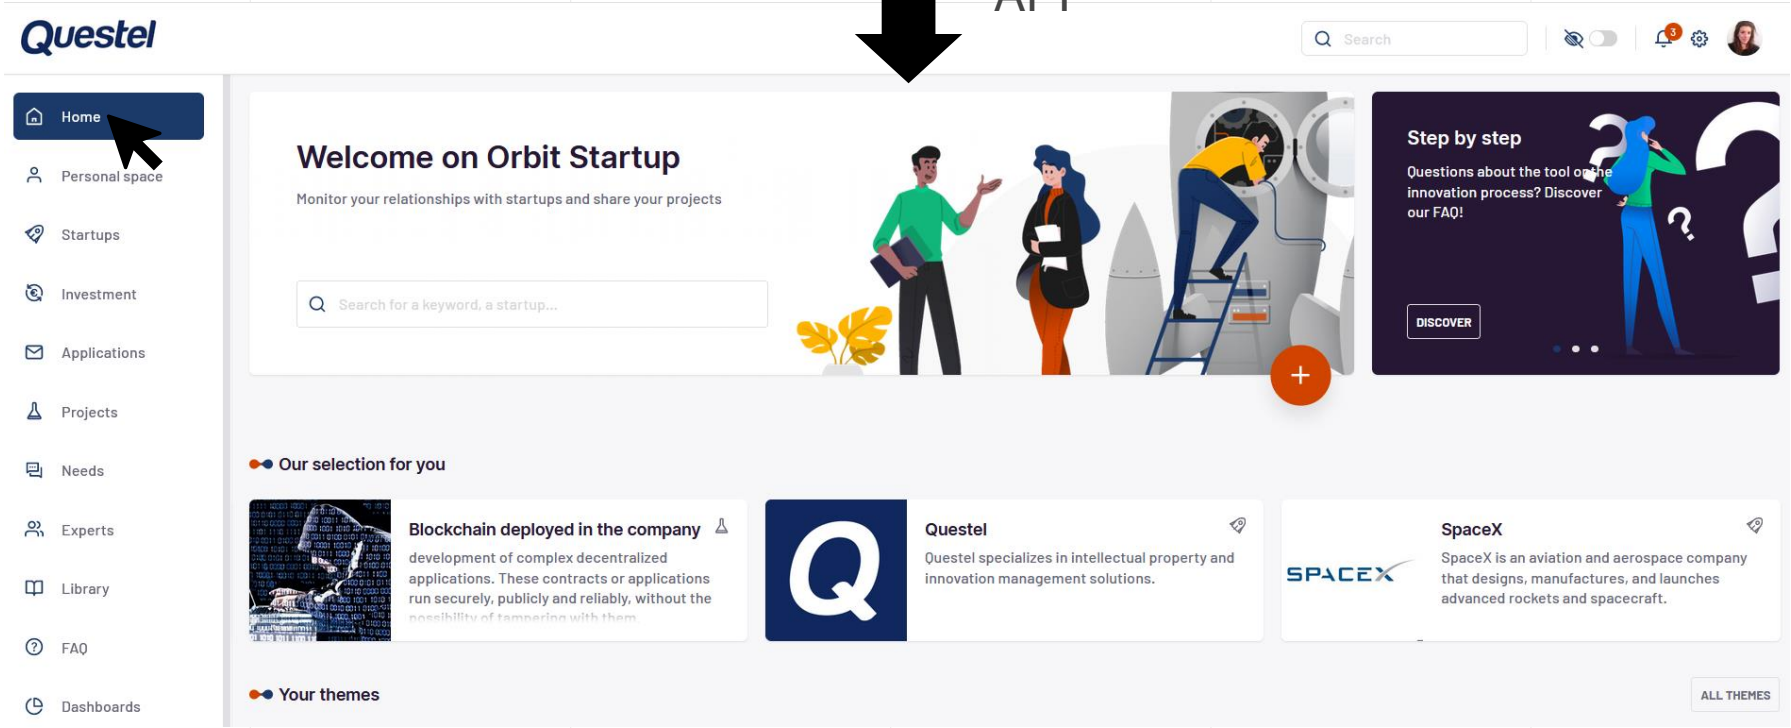

The "Insight Feed" section is prominently displayed, showing a list of news items. The first item is from BIONTECH, dated Monday, March 08, 2021, titled "BioNTech co-founder says gender equality made vaccine possible". The second item is from PATENTING ACTIVITY, dated Thursday, March 04, 2021, titled "BioNTech (or one of its subsidiaries) published a new patent : Neoantígenos y usos de los mismos". The third item is from TOTAL, dated Thursday, March 04, 2021, titled "Total forms joint venture for C&I solar deployment in Saudi Arabia". The fourth item is from PATENTING ACTIVITY, dated Thursday, March 04, 2021, titled "Total (or one of its subsidiaries) published a new patent : Organic-solvent based coating composition for coating a surface of a metal substrate for increasing the coefficient of friction of the surface of the metal substrate". The fifth item is from PATENTING ACTIVITY, dated Thursday, March 04, 2021, titled "Total published a new patent : Process for producing vinyl aromatic (co)polymer incorporating post-consumer and/or post-industrial recycled polystyrene". The sixth item is from PATENTING ACTIVITY, dated Thursday, March 04, 2021, titled "Total published a new patent : Expandable vinyl aromatic polymers with improved flame retardancy".

At the bottom of the interface, there is a section titled "Get FRESH NEWS and LATEST UPDATES about SEARCHES & COMPANIES that MATTER FOR YOU". This section is part of a larger promotional banner that also includes the text "Big picture thinking to come up with ideas, solutions & opportunities".
