STARTUPS SOURCING

Need

Venture capitalists
Investors
Business Managers
Consultants

We need to **position** and **secure** access to **new markets**.

We want to be the first to **seize opportunities**

We want to **invest** in future **technologies**

We want to find for partners to **co innovate**

STARTUPS SOURCING

Everything starts with keywords related to the opportunity

Build a search query developing the two attributes for the Fintech:

- A technology related to information and communication computing, including artificial intelligence (AI), big data, robotic process automation (RPA), and blockchain.
- A financial service or an application related to the banking system.

The screenshot displays the innosabi search interface. At the top, there's a 'Boost my search' checkbox. Below it, the 'Input' section shows two main query components. The first component has a 'BETA' icon, the keyword 'blockchain', an 'Add suggestions' button with a '9' badge, and a list of related terms: 'cybersecurity', 'neural network', and '+ 5 more'. The second component starts with an 'AND' operator, followed by a 'BETA' icon, the keyword 'finance', an 'Add suggestions' button with a '9' badge, and a list of related terms: 'bank', 'trading', 'transaction', and '+ 1 more'. Below the queries is a search bar with the placeholder text 'Add a new concept'. At the bottom, there are two buttons: 'Cancel my search' and 'Launch my search'. The interface also includes expandable sections for 'Filters' and 'Resume'.

10 HOT FINTECH STARTUPS FROM INDIA

INDIA

10 Hot Fintech Startups from India to Watch Closely

by Fintechnews Singapore / December 14, 2018

India's fintech ecosystem has evolved significantly with considerable efforts from financial institutions, startups, the government, venture capitalists and regulators to create a favorable environment for fintech innovation that's conducive of collaboration.

According to a Yes Bank report, the transaction value for the Indian fintech sector was estimated to be approximately US\$33 billion in 2016 and is forecast to reach US\$73 billion in 2020 growing at a five-year CAGR of 22%.

The following 10 companies are some of India's hottest fintech startups that are fueling the country's fintech revolution:

SR

Stanley Robotics provides outdoor robotic parking service.

Description

Stanley Robotics bring forth an inventive, however easy to grasp concept designed to enhance the user experience for travellers who chose to park their car at the airport. With the completely autonomous, robotic valet parking service the steps are simple. You drop your car off at one of their well-lit, enclosed and secured car cabins, and proceed thereafter to take your luggage and belongings out of your vehicle.
